Section 2: Project Overview

General Project Information

Project Title: PUBLIC SAFETY ANALYST PROJECT
Subgrant Recipient: City of Jacksonville
Implementing Agency: Jacksonville Sheriff's Office
Project Start Date: 10/1/2014 **End Date:** 9/30/2015

Problem Identification

Criminal activity is indiscriminate and it spans jurisdictions, cities, counties and states. In an increasingly mobile world, offenders can more easily transition to new locales and commit the same types of crime while the "heat" associated with recent criminal activity elsewhere cools down. This is especially true in Duval County, Florida.

Duval County is comprised of 840 square miles, with a population of over 862,000. The Jacksonville Sheriff's Office (JSO) is responsible for providing law enforcement services to the city of Jacksonville, which makes up approximately 95% of the county's population. There are three Beaches communities that make up the remainder of Duval County. Atlantic Beach, Neptune Beach and Jacksonville Beach each have independent law enforcement agencies that serve their independent communities.

Historically, JSO has conducted crime analysis activities for jurisdiction served by the agency: Jacksonville. In recent years, with continuous advances in technology and mobility, Duval County law enforcement agencies have become increasingly cognizant of the importance of sharing data across the entire county. In doing so, agencies are better equipped to identify what may seem like random, unrelated incidents as calculated, multi-community victimizations that negatively affect the public safety in the entire county. A public safety analyst position was created to meet this need.

During first three quarters of the current JAGC fiscal year, the public safety analyst played a critical role in identifying otherwise unrelated activity including:

- The identification of auto burglary and grand theft suspects
- Analysis of a series of purse snatching robberies, industrial tire thefts and grocery store wallet thefts
- The identification of special assault patterns
- Cross-jurisdictional patterns

Project Summary (Scope of Work)

The Jacksonville Sheriff's Office (JSO) is requesting the continuation of a public safety analyst position to serve the beaches area. Maintaining this position will allow JSO to continue information sharing on cross-jurisdictional criminal activity and intelligence to all jurisdictions located within Duval County. The public safety analyst will continue to enable law enforcement agencies to more effectively address public safety throughout Duval County.

The Beaches public safety analyst will conduct ongoing analyses of crime patterns relating to investigations throughout Duval County. In addition, the analyst will attend meetings with law enforcement divisions throughout the county, including Neptune Beach, Jacksonville Beach, Atlantic Beach and JSO.

Recipients of direct grants may still engage in inherently religious activities, but such activities must be separate in time or place from the Department of Justice funded program, and participation in such activities by individuals receiving services from the grantee or a sub-grantee must be voluntary. The Equal Treatment Regulation also makes clear that organizations participating in programs directly funded by the Department of Justice are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion. The subgrantee also understands and agrees that award funds may not be used to discriminate against or denigrate the religious or moral beliefs of students who participate in programs for which financial assistance is provided from the award, or the parent or legal guardian of such students. Notwithstanding any other special condition of this award, faith-based organizations may, in some circumstances, consider religion as a basis for employment. See www.ojp.gov/about/ocr/equal_fbo.htm.

- (9) Have in place and implement a written agreement with the responsible state or local service agencies to properly respond to any minor, as defined by state law, at the site. This agreement must ensure immediate response by qualified personnel who can (i) respond to the potential health needs of any minor at the site; (ii) take that minor into protective custody unless the minor is criminally involved in the meth lab activities or is subject to arrest for other criminal violations; (iii) ensure immediate medical testing for methamphetamine toxicity; and (iv) arrange for any follow-up medical tests, examinations, or health care made necessary as a result of methamphetamine toxicity
