III. Statements

A. This PUD proposes additional neighborhood commercial uses in addition to those allowed under the current PUD. The current PUD zoning classification allows for very limited commercial uses that are inadequate to accommodate current neighborhood non-residential market demands.

B. The property owner's intent is to maintain the overall existing physical condition of the property as in the past, and to occupy the currently vacant commercial structure with services benefit to its neighborhood, as proposed in this PUD to PUD rezoning application.

C. The proposed PUD to PUD rezoning is justified because the current PUD's allowable uses, as well as those allowed by exception, are extremely limited in scope making the location unable to adequately offer its neighborhood the benefit of the proposed additional uses proposed herein. Further, the limited uses currently allowable have triggered lost opportunities for the owner to

accommodate offers seeking space for proposed uses not currently allowed, that has in turn resulted in the property's current 100% vacant status.

D. No new construction is planned for the subject property.
