

● PC Vote: 5-0

● PC Commentary: There was one speaker who had concerns about one access point and when a traffic signal would be installed. The Department recommended adding Condition #3 as the area is beginning to be developed. The agent expressed concern about the lack of specificity with the location of the proposed connection to New World Avenue and the potential costs for re-engineering and loss of lots. The Commission felt a second access is needed, however they revised the condition.
