- (1) Commercial property owners in DVI's Downtown district pay 1.1 mils of their property's assessed value to DVI. This amount reflects a contribution from the City equal to 1.1 mils of the value of the City's owned property (minus a rent credit of \$33,988 for Downtown Vision's space in the Ed Ball Building.)
- (2) This contribution includes an increase of \$146,831 from the City's historic contribution of \$311,660 to reflect a full 1.1 mils contribution. These additional funds (\$146,831) would result in 4 more full time Clean & Safe Ambassadors that could focus on the Northbank and Southbank Riverwalks in support of the Downtown Core, which is growing rapidly given the significant investment by Downtown Investment Authority and the City of Jacksonville.
- (3) Contracted services include an existing ambassador team of 4.4 FTE safety ambassadors, 5.2 FTE cleaning ambassadors, a supervising project manager, uniforms, supplies and equipment. This line item includes 75% of the Director of District Services salary plus 25% of admin budget.
- (4) Includes salaries for Vice President of Marketing, Communications Coordinator, Events Manager and 50% of Director of Experience salary. Includes 25% of the admin budget.
- (5) Includes salary for 25% of Director of District Services and 50% Director of Experience salary and 25% of admin budget.
- (6) This represents 25% of the admin budget, which includes the CEO and Business Administrator positions.

Program Name	Description	FY18 Proposed
STD	<p>Nationally, youth and young adults account for half of all new STD infections. While STDs affect individuals of all ages, STDs take a particularly heavy toll on young people. CDC estimates that individuals ages 15-24 make up just over one quarter of the sexually active population, but account for half of the 20 million new sexually transmitted infections that occur in the United States each year. Looking at the data provisionally for 2016, fifty-six percent of reported STDs in Duval County were among youth and young adults aged 15-24. Within this age group in Duval, 1 out of every 22 individuals had a reportable STD in 2016. The distribution of infection is 8.1 times higher among 15-24 year olds than the reported STDs within the total population of Duval County. The Jacksonville Teen Health Centers are STD/HIV prevention outreach programs offered on high school campuses and other community sites. Youth served during the outreaches are aged 13-19 and predominantly African Americans, and both heterosexual and males who have sex with males. This outreach/prevention program provides comprehensive health education, free condoms, STD/HIV/pregnancy screening, STD treatment, and referrals for related services. This funding has helped support seven high schools (Terry Parker, Jackson, Ribault, Englewood, and Sandalwood, Lee and West side High), and one community-based organization JASMYN (Jacksonville Area Sexual Minority Youth Network), in which services youth aged 13-23. Service sites were selected due to their location in areas with high STD/HIV morbidity. Funding will help this much needed program to expand to eight sites total and increase service hours over the next two school years to provide Teen Health services/referrals.</p>	147,000
Immunizations	<p>At the South Jacksonville Family Health Center location we have long noted a significant number of walk-in immunization clients. As the Agape Community Health Center Network became independent last year, DOH-Duval took action to ensure residents in this area would not lose access to these services. DOH-Duval with the City of Jacksonville's support created an immunization center at the South Jacksonville location. This center services a large refugee population in the vicinity of the University Boulevard location as well as providing a hub for immunization information and education. The center has served over 2,330 clients this year well over our projected total of 1,000 we initially anticipated. As we have seen an increase in the number of vaccine preventable infections, we must continue our efforts to improve immunization acceptance and administration rates. Additionally, influenza remains a significant cause of morbidity in our community. We also launched a successful flu vaccine campaign targeting pre-school age children, as the immunization of children is proven to decrease transmission among adults. This request will allow DOH-Duval to continue these much needed services in this community.</p>	150,000
HERAP	<p>DOH-Duval's Hospital Emergency Room Alternative Program (HERAP) program has evolved. This programs initial mission was to improve health outcomes for uninsured, underinsured, and low income residents of our community. We have now expanded our scope to begin providing case management and education services to HIV clients with co-morbidities (diabetes and hypertension) and OB clients to improve pregnancy outcomes and decrease infant mortality. Nutritional counseling is also provided for these clients. Other services include foot exams for diabetic clients, case management services, and outreach events (B/P and diabetes screenings). Self-Management workshops (diabetes and chronic disease aka Living Healthy Workshops) are taught by our qualified staff in conjunction with our community partner AHEC.</p>	258,292
Wesconnett Health Center	<p>The Florida Department of Health (DOH) partnered with the Agape Network Federally Qualified Health Center (FQHC) for 15 years to provide services at several locations. In 2016, the partnership ended and the FQHC began to provide primary care services for adults and children independently of DOH at Wesconnett in west Jacksonville. This site provides services to a largely underserved population that is predominately Hispanic. The FQHC has decided not to continue to provide services at that site. This will leave a gap in services provided to that population. We plan to expand the services we offer there to help fill the gap. We will provide comprehensive pediatric services. In addition, we have recognized the need to increase the public health services offered. We will offer walk-in sexually transmitted disease (STD) testing and treatment as well as walk-in immunization services. Duval continues to be #2 in STD rates and below the 95% threshold for immunization rates. By increasing our services in the Wesconnett area we will be able to better serve the westside community</p>	150,243
