PROJECT TITLE: **FUNCTIONAL AREA / AGENCY: PROGRAM AREA:** Microsoft Office 365 Citywide

Application - Citywide

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 On-Going N/A

Prior Yr.

Project Description:

Cloud-based Microsoft Office 365 includes online versions of Outlook, Word, Excel, PowerPoint, OneNote, Skype for Business and SharePoint. Supports use on mobile platforms like iPad and Android devices. Enterprise-class security and reliability, unlimited Email archiving and compliance capabilities. Disaster Recovery(DR) for Email. Reduction of local Storage Area Network SAN disk space and local system engineer support. System is kept up to date without additional charges for updates or local costs to perform upgrades.

Level of Service Impact:

Total Est.

(1) ensures efficient response to email and other support needs. (2) Reduce costs of labor and lost productivity due to experts on call. (3) Enhances application performance and system stability. (4) Provides true Disaster Recovery / Business Continuity. Estimated cost savings account for the absence of maintenance agreements supporting anti-spam appliances which would not be needed in connection with Microsoft Office 365.

Fleet Management System - Fleet Mgmnt Application - Department Specific

Replacement

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 FY 18-19 Borrowed Funds

Project Description:

The purpose of this project is to replace the current Tivoli Fleet Management System with a purchased solution that will allow the Fleet Management Division to satisfy their business needs by providing a Fleet specific application with the following functionality: Vehicle Services and Repairs, Equipment and Inventory, Fuel Usage and Milage Tracking, Invoice and Billing, and Surplus and Disposal.

Level of Service Impact:

Provide Fleet focused functionality, eliminate manual billing processes, eliminate in-house customizations and improve reporting and analytics.

Fire Inspection System JFRD Application - Department Specific

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 On-Going Pay-Go - Equipment Refresh

Project Description:

Replace existing system that is end of life and does not support all required functions. The Fire Inspection System is critical to improving firefighter and civilian safety, reducing property damages and improving the level of service that JFRD provides to the community.

Level of Service Impact:

Enable JFRD to automate manual processes and efficiently and effectively collect fees real-time. The Fire Inspection System allows firefighters and inspectors on the scene to access critical information on a building's layout, fire suppression capabilities and any hazardous materials coupled with allowing the general public to readily gain access to code violations of structures and inspection results.

Benefits to the Public:

Without this project, there are direct impacts to the Fire Inspection and Operations Divisions of JFRD as facility reports are not available to the inspectors or firefighters when on-scene. The absence of which endangers both firefighters and civilians and increases the likelihood that lives and property, that could have been saved, may not because the required data was not available.

Case Management System - ME Of

Medical Examiner

ME Office Application - Department Specific

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 FY 17-18 Borrowed Funds

Project Description:

The purpose of this project is to replace the Medical Examiner's Office (MEO) current MS Access 2003 application with a new purchased solution that will allow them to satisfy their business needs by providing the following functionality: Case Management, Tracking Case Information, Data Storage and Encryption, Remote Access, Reporting, Billing, Compatibility with Auxiliary Devices and the ability to interface with COJ's Accounting System.

Level of Service Impact:

Ensures that the MEO is able to provide services to over one million people in two districts encompassing five counties in Northeast Florida (Duval, Clay, Nassau, Columbia, and Hamilton). In addition, the MEO will be able certify the causes of death which are reasonably accurate and acceptable for purpose of vital statistics.

PROJECT TITLE: FUNCTIONAL AREA / AGENCY: PROGRAM AREA: Enterprise Auto Vehicle Locator Citywide Enterprise Solution

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$463,864 N/A Borrowed Funds

Project Description:

Managing city-wide vehicles for location, fuel consumption and employee productivity. Project costs are for a cellular solution with a three year contract rolling on 800 vehicles per year until fully implemented in FY17-18. The proposed solution would upgrade current technology, purchase additional units, and new telemetrics to ensure drivers are compliant with safety requirements and meeting performance objectives.

Level of Service Impact:

1) Increased operational efficiency and risk avoidance 2) Optimizes driver pick up or deliver, thereby providing faster service and savings in fuel cost 3) Ensures drivers are compliant with safety and performance requirements 4) Confirms drivers use fuel efficient routes 5) Provides ability to validate citizen complaints.

Enterprise Financial / Resource

Mamt Solution

Enterprise Solution

PREVIOUS FUNDING: PROJECT COMPLETION DATE: **FUNDING SOURCE-CAPITALIZED COST:**

\$12,225,400 FY19-20 **Borrowed Funds**

Project Description:

This project will consolidate multiple ad-hoc systems (FAMIS, Budget Prep, Oracle HRMS, Oracle Position Control, Employee Performance Management) into one integrated, hosted solution that will ensure consistency and completeness of functions performed, reduce duplicate functions, maintenance and support costs and improve efficiencies. Enterprise Resource Planning (ERP) will provide consolidated data and information to drive decision making with real-time views of business process performance. ERP will assist with optimization of major operational areas; Human Capital Management, Financial Systems and Performance Management Systems.

Level of Service Impact:

This project will potentially reduce software maintenance and support when implementing industry best practices even while increasing the volume of processing business transactions.

Enterprise Permit / Land Use Citywide Enterprise Solution

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$14,248 FY19-20 Pay-Go

Project Description:

Management

An Enterprise Permit Management/Land Use Solution will provide a vendor product that will be able to replace multiple systems within departments such as Public Works, Planning and Development, and Neighborhoods. Major functions of the enterprise solution include permitting, design review, inspections, violation and citation processing and tracking. The commercial software is intended to replace the following existing systems: Building Inspection System, Development Services Plans and Plat Reviews, Concurrency System, Zoning Management System, Land Use and Zoning System, Wellhead Permitting System, Construction Trades Qualifying Board System, Engineering Project Management System, Traffic Engineering System and Tivoli database for Public Buildings, Mowing and Landscaping and ROW and Grounds Maintenance.

Level of Service Impact:

The existing systems were developed in-house and require significant enhancements and maintenance. The new project/solution will reduce maintenance costs and provide faster turn-around time to the public and contractor/builders for permitting, design review, and inspection functions.

Benefits to the Public:

Citizens will be better served with reduced time and cost and online access to a more streamlined permitting, design review, and inspection process.

Computer, Laptop and Tablet Citywide

Equipment Refresh

Infrastructure / Equipment

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST:

\$0 On-Going Pay-Go - Equipment Refresh

Project Description:

All COJ computers are currently running the 2010 version of Microsoft Office Suite which goes to end of life in January 2020. At that time, the software will no longer be supported by Microsoft and will be unprotected from software vulnerabilities. Microsoft Office 2016 is the latest version of the Office suite and offers a large number of enhancements and integration features not available in Office 2010.

Level of Service Impact:

There are currently approximately 4,000 computers that are over five years old in operation throughout the City which equates to an increasing volume of hardware related issues and failures.

Network Equipment Refresh ITD Infrastructure / Equipment

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST:

\$1,040,384 On-Going Pay-Go - Equipment Refresh

Project Description:

Establish a recurring refresh cycle to replace network devices each year resulting in all network equipment being replaced every eight (8) years. Each year the network replacement strategy will be reviewed to identify efficiencies and improvements in hardware/software technology based on infrastructure bandwidth, customer capacity and trending technologies.

Level of Service Impact:

1) Minimize network outages and business interruptions preventing productivity loss caused by outdated and unsupported equipment. 2) Eliminate unnecessary equipment expenditures due to unsupported devices. 3) Create an ongoing equipment refresh cycle.

PBX: Telecommunications ITD

Upgrade

Infrastructure / Equipment

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST:

\$0 FY 21-22 Borrowed Funds

Project Description:

The intent of this project is upgrade the software and hardware of the four Legacy Nortel Telephone PBX systems which operate approximately 6,400 desktop phones and seven Call Centers across the City of Jacksonville. ITD has been notified of Avaya's (Avaya is the parent company of Nortel) decision to end hardware and software support for the current version, which ended in June 2015. Although the system continues to operate, the age of the existing equipment causes significant challenges in finding parts for repair given the ending of support for the existing version of hardware and software (the hardware and software are linked). This project includes refreshing all desktop phones and seven call centers, one of them being 630- CITY.

Level of Service Impact:

The existing hardware and software on the aging PBX systems reached its end of support in June 2015. The state of the PBX systems puts into jeopardy the ability to repair systems due to the difficulty finding parts for repair which has a direct bearing on public safety.

Security Upgrades - Technology / ITD Infrastructure / Equipment

ITD

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 FY 19-20 Borrowed Funds

Project Description:

This project is focused on continuing critical protection with a fortified security perimeter defense to defend ingress network traffic for the COJ enterprise. This ITD security project includes technology security upgrades for perimeter Firewall and Intrusion Detection Systems as well as a Administrative Rights Removal Software Support tool. New technology threats executed by hackers occur daily; and to ensure business continuity, the city's IT Security appliances must be refreshed as well as tools used to mitigate risks against downloading of unauthorized and unintended software.

Level of Service Impact:

Prevents loss of confidentiality, maintains integrity, and insures availability of COJ IT assets and services.

Server Equipment Refresh ITD Infrastructure / Equipment

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST:

\$456,255 On-Going Pay-Go - Equipment Refresh

Project Description:

The intent is to keep the server infrastructure and vendor support for hardware issues current by completing an annual server refresh of the existing inventory of those physical servers that fall into the category of Information Technologies Division recommended five year replacement cycle. Each year, the server replacement strategy will be reviewed to identify efficiencies and improvements in hardware/software technology to potentially virtualize some servers based on infrastructure bandwidth, customer capacity and trending technologies.

Level of Service Impact:

1) Ensure efficient response to server issues. 2) Reduce costs of labor and lost productivity due to server outages and "crashes." 3) Enhance application performance and system stability.

P25 Radio - Radio Site Expansion Citywide Radio System

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$0 FY 22-23 Borrowed Funds

Project Description:

The previous Radio Communications System was limited to 10 sites, which limits the in-building coverage of the system. However, P25, the current radio system is capable of supporting 15 sites. The project scope is to add five simulcast radio sites to the P25 system; FY19 Montgomery Correctional Institute/PFARM, FY20 Bayview, FY21 Mayport Substation, FY22 Crystal Springs and FY23 Community Hall.

Level of Service Impact:

Completion of this project will enhance and improve the in-building communication coverage for Duval County and surrounding areas on the current radio system; thereby, eliminating the need for in-building amplifiers for multiple sites.

P25 Radio - Radio Tower UPS Citywide Radio System

Replacement

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$165,536 FY19-20 Pay-Go: Departmental Billings

Project Description:

Replace older, failing Uninterrupted Power Supply (UPS) equipment, ensuring public safety two-way mobile radio continuity. The UPS equipment are several years beyond the end of life. A recurring refresh cycle should be established to replace UPS equipment installed at two (2) P25 tower sites each year for FY17 - FY19 and one (1) P25 tower site in FY20.

Level of Service Impact:

Total Est.

Prior Yrs.

Maintain a continuous supply of A/C power to the P25 Radio System equipment in the event of a power outage. The new UPS equipment protects the costly P25 Radio System hardware from a power surge. Replacement serves to minimize public safety radio outages and prevents a negative impact to the ability to maintain the City's P25 Radio System.

Benefits to the Public:

Minimize Public Safety two-way radio communication outages in an effort to prevent adverse impacts to the ability to maintain a continuously operational City P25 Radio System. The Microwave Indoor Radio Units provides a mechanism for utilizing the full capabilities of the P25 Radio System.

Radio - Mobile Radio Refresh Citywide Radio System

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$2,381,658 FY 22-23 Pay-Go: Radio Refresh

Project Description:

Funding to replace all mobile radios for JSO, JFRD as well as consollette and specialty mobile radios. Total estimated cost is reflective of an eight year refresh project to be completed in FY22-23.

FY17-18 Count:

JSO 253 JFRD 75 328

Level of Service Impact:

Two-way mobile radios allow Law Enforcement, Fire Rescue, Emergency Management, Education/campus security, Utility Company and General City agencies radio communication capabilities throughout Duval and surrounding counties.

Radio - Redundant Backup System Citywide Radio System

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST:

\$0 FY 19-20 Borrowed Funds

Project Description:

To provide radio system redundancy for the P25 Radio System and establish a redundant master and GEO prime radio system and site.

Level of Service Impact:

The Redundant Master Site and GEO-Redundant Prime Site allows for greater flexibility, enhances radio system redundancy capabilities and allows continuous two-way radio communication for radio subscribers in case of system failure or maintenance repair to the P25 Prime Master Site.

P25 Radio - Fire Station Paging JFRD Radio System

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$3,000,000 FY17-18 Borrowed Funds

Prior Yrs.

Project Description:

Replace the existing JFRD Fire Station Alerting System (FSAS), otherwise known as the EDAS System, with a fully automated IP based FSAS that will integrate with the JFRD's existing Motorola "Premier" Computer Aided Dispatch (CAD) system, Motorola P25 radio system, and the City's existing network.

Level of Service Impact:

Improved emergency response to citizens EMS and Fire related issues reported through 911 by implementing a fully integrated and sustainable station alerting system.

(MDT) Replacement

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$46,700 On-Going Borrowed Funds

Project Description:

JFRD operates with a minimum of 215 ruggedized computers that are used at fire stations, rescue vehicles, brush trucks, tankers and Fire Chief vehicles. The funding requested in FY18 is to address break/fix issues.

Level of Service Impact:

Due to the environment in which these computers are used, they tend to experience higher breakage rates and failures in comparison to computers used in standard office environments and historically start malfunctioning after four years. Once the warranty expires, after five years, the repairs are usually not cost-effective with many devices being in an unrepairable state.

| Capitalized Costs | Total Est. Cost | Prior Yrs. Funding | FY 17-18 | FY 18-19 | FY 19-20 | FY 20-21 | FY 21-22 |

Unified CAD - 911 Call System JFRD / JSO Safer Neighborhoods Investment Plan

Replacement

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$3,001,627 FY 18-19 Borrowed Funds

Project Description:

Replace JFRD/JSO 911 Call System which will be end of life in 2018. ITD Business Systems Analysts' conducting requirements to identify the common and unique functions in order to create an RFP to replace the current system and consolidate into a single platform for JSO and JFRD. Implementation schedule is estimated to take 18 months from contract execution. Pricing includes upgrades to PremierOne CAD system, modifying current third party hardware and interfaces to the new system.

Level of Service Impact:

Ensure continuity of critical 911 call solution required for public safety. Improve emergency response time and provide better situational awareness to dispatch and to responders in the field. An important project objective is to have a single classification of fully trained 911 Call Takers with the goal of having combined facilities.

CARE System Upgrade / Citywide System Upgrade / Expansion

Replacement

PREVIOUS FUNDING: PROJECT COMPLETION DATE: FUNDING SOURCE-CAPITALIZED COST

\$110,000 FY18-19 Borrowed Funds

Project Description:

The current Citizen Active Response Effort system (CARE) has been in production since 1996 and has gone through major enhancements throughout the years. The City's Customer Service Center/Division (630-CITY) receives close to 1,500 service requests per day during normal business hours. Replacing the existing in-house developed application with a Software as a Service (SaaS) CRM solution will create efficiencies and a more effective method for citizens to interact with the City. Functions within the CRM will include: Case Management, Workflow Management, Knowledge Base, Analysis and Reporting, Web Self-Service, Mobile Application, and Social Media.

Level of Service Impact:

Implementing a Customer Relationship Management System, with self-service capabilities, will help decrease call volumes for 630-CITY by allowing citizens to enter requests via mobile technology and social media. In addition, CRM improves citizen request workflow by directly routing requests and/or issues to the responsible agencies; thus, saving time from point of entry to resolution.

| SW/HW Maint | | | | | |
| | \$ - | \$ - | \$ - | \$ - | \$ - |
| | | | | | |

Benefits to the Public:

The solution will increase the level of service delivery to citizens by providing a single point of contact with various methods of issue entry such as social media, the web and IVR. In addition, CRM will provide self-service capability for citizens to track requests and issues while providing interactivity and collaboration with the City by providing citizens with on-going statuses and other pertinent communication. Finally, citizens will experience better end-user functionality such as strong knowledge base to help guide them through the issue/request process.
