PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

The Planning and Development Department, Community Planning Division, respectfully proposes text amendments to the 2030 Comprehensive Plan. Policy 2.3.6 of the Transportation Element would be amended and Policy 1.3.6 of the Future Land Use Element would be amended to clarify requirements regarding access to newly developed and redeveloped non-residential parcels with frontage along two or more roadways and is proposed to read as follows: The City shall require that access to newly developed and redeveloped non-residential parcels with frontage along two or more roadways be limited in order to protect performance of the City's transportation network. Access shall be limited to one per roadway with access from the higher functional class roadway or roadway with the higher average daily traffic being limited to right turn-in/right turn-out only. However, exemptions from this Policy may be granted by the Traffic Engineering Division and the JPDD where factors justify the exemptions. Factors to be taken into consideration for exemptions may include, but are not limited to: parcel size and road frontage; projected trip generation of a development; safety and congestion hazards; potential for delay on adjacent road facilities; environmental degradation; adequate traffic circulation; and/or elimination of existing access points.
