PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

This project is being done in order to comply with deficiencies listed in the Department of Justice (DOJ) 2013 survey that are part of the DOJ settlement agreement with the City. The DOJ determined that the pretrial detention facility does not have accessible cells, toilets, and shower facilities to meet the needs of their inmates with mobility disabilities. Per ADA standards for accessible design, at least 3 percent of the detention and correctional facilities total cells need to have accessibility features for individuals with mobility disabilities. The ADA repairs for this project requires work on 7 floors (lower level and 6 floors) and requires the upgrades of 31 detention cells and 24 showers. The work includes modifications of selected detention cells, showers and toilets to upgrade for current ADA deficiencies. The upgrades include restoring/modifying walls, base, trim, floor, toilet accessories, partitions, doors, frames, hardware, glazing, plumbing work, mechanical work, electrical work and all other improvements/repairs required to fulfill the items listed by DOJ. Only one floor can be under construction at any given time. Construction time needs to be minimized to avoid conflict between the construction/contractors and the inmates. The Detention Facility will have inmates during the total time of the construction. The contractor must schedule the demolition and construction with minimum disturbance to the facility. The essential areas of the building must be operational continuously (24/7). Also, the contractor must maintain the facility (other floors) existing systems in operation while working with the plumbing, mechanical, electrical power and lighting. Deferral of this amendment of the CIP until the next annual budget and CIP review will be detrimental to the best interest of the community because such deferral will result in the unnecessary further delay of completing the work required by the Department of Justice.
