PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

As a result of Hurricane Irma, the City of Jacksonville's beach (berm) and dunes are in need of repair. In order to accomplish this necessary repair, the Mayor will need authorization to execute a Memorandum of Agreement with the United States Army Corps of Engineers (USACE), funding will need to be appropriated to support the dune repair activity that will be performed while USACE makes repairs to the beach (berm), and the lease agreement with the Bureau of Ocean and Energy Management (BOEM) will need to be extended, for the supply of suitable sand to make both the beach and dune repairs. This action is similar to the activities conducted in response to damages arising from Hurricane Matthew, when Ordinance 2016-720 appropriated funds for the Duval County Beaches Dune Restoration and sea oat planting related to damages caused by Hurricane Matthew in October 2016. With the recent passage of the Bipartisan Bill by the United States Congress, USACE has informed us that the traditional local cost share for the beach renourishment (berm) is anticipated to be fully funded by the Federal Government, which means the only anticipated costs for the City are related to the Dune Restoration effort arising from the impacts of Hurricane Irma.
