Staff Recommendation: **APPROVE**

GENERAL INFORMATION

Application for Rezoning Ordinance **2018-0376** seeks to rezone approximately 2.24 acres of land from RR-Acre to RLD-70. The property is currently developed with a single-family dwelling, as well as a mobile home. The applicant is seeking to rezone the property to RLD-70 due to the current Land Use category of LDR allowing for up to 7 units per acre in the area.

STANDARDS, CRITERIA AND FINDINGS

Pursuant to Section 656.125 of the Zoning Code, an applicant for a proposed rezoning bears the burden of proving, by substantial competent evidence, that the proposed rezoning is consistent with the City's comprehensive plan for future development of the subject parcel. In determining whether a proposed rezoning is consistent with the 2030 Comprehensive Plan, the Planning and Development Department considers several factors, including (a) whether it is consistent with the functional land use category identified in the Future Land Use Map series of the Future Land Use Element; (b) whether it furthers the goals, objectives and policies of the comprehensive plan; and (c) whether it conflicts with any portion of the City's land use regulations. Thus, the fact that a proposed rezoning is permissible within a given land use category does not automatically render it consistent with the 2030 Comprehensive Plan, as a determination of consistency entails an examination of several different factors.

1. *Is the proposed rezoning district consistent with the functional land use category identified in the 2030 Comprehensive Plan?*

Yes. In accordance with Section 656.129 *Advisory recommendation on amendment of Zoning Code or rezoning of land* of the Zoning Code, the Planning and Development Department finds that the subject property is located in the LDR functional land use category according to the Future Land Use Map series (FLUMs) adopted as part of the 2030 Comprehensive Plan. According to the Future Land Use Element (FLUE), Low Density Residential (LDR) in the Suburban Area is intended to provide for low density residential development. Single family and Multi-family dwellings are principal uses in LDR. This site is also located in Planning District 3 and Council District 6.

2. *Does the proposed rezoning further the goals, objectives and policies of the 2030 Comprehensive Plan?*

Yes. The proposed rezoning is consistent with the following Goals, Objectives, and Policies of the 2030 Comprehensive Plan, Future Land Use Element:

Goal 1

To ensure that the character and location of land uses optimize the combined potentials for economic benefit and enjoyment and protection of natural resources, while minimizing the threat to health, safety and welfare posed by hazards, nuisances, incompatible land uses and environmental degradation.

Objective 1.1

Ensure that the type, rate, and distribution of growth in the City results in compact and compatible land use patterns, an increasingly efficient urban service delivery system and discourages proliferation of urban sprawl through implementation of regulatory programs, intergovernmental coordination mechanisms, and public/private coordination.

Policy 1.2.9

Require new development and redevelopment in the Central Business District, Urban Priority Area, Urban Area, and Suburban Area to be served by centralized wastewater

collection and potable water distribution systems when centralized service is available to the site. New septic tanks in this area maybe permitted only as interim facilities pursuant to the requirements of the Sanitary Sewer Sub-Element.

Goal 3

To achieve a well-balanced and organized combination of residential, non-residential, recreational and public uses served by a convenient and efficient transportation network, while protecting and preserving the fabric and character of the City's neighborhoods and enhancing the viability of non-residential areas.

Objective 3.1

Continue to maintain adequate land designated for residential uses which can accommodate the projected population and provide safe, decent, sanitary and affordable housing opportunities for the citizens. Protect single-family residential neighborhoods by requiring that any other land uses within single-family areas meet all applicable requirements described in the Development Areas and the Plan Category Descriptions of the Operative Provisions of the 2030 Comprehensive Plan and Land Development Regulations.

Policy 3.1.3

Protect neighborhoods from potential negative impacts by providing a gradation of uses and scale transition. The Land Development Regulations shall be amended to provide for an administrative process to review and grant, when appropriate, relief from the scale transition requirements.

3. *Does the proposed rezoning conflict with any portion of the City's land use regulations?*

No. The proposed rezoning is not in conflict with any portion of the City's land use regulations. The subject property will meet the requirements of the RLD-70 zoning district as set forth in the Zoning Code.

SURROUNDING LAND USE AND ZONING

The subject property is located about a half of a mile south of Sunbeam Road on the southeast corner of the Hood Road and Lourcey Road intersection. The site is located in the Suburban Area Development Boundary. The proposed RLD-70 zoning district permits development well suited to the contiguous residential development density. The area along Hood Road is largely residential in nature and is characterized by a mixture of large and small lots with single-family homes. The proposed zoning district is required to have a minimum 7,200 feet in lot area, which is smaller than the minimum requirement for some surrounding RR-Acre lots (43,560 square feet), but larger than the adopted PUD lots to the north (6,000 square feet). Surrounding land uses and zoning districts are as follows:

<u>Adjacent Property</u>	<u>Land Use Category</u>	<u>Zoning District</u>	<u>Current Use(s)</u>
North	LDR	PUD	Proposed Single-family homes
East	LDR	RR-Acre	Single-family home
South	LDR	RR-Acre	Single-family home
West	LDR	RR-Acre	Single-family home

SUPPLEMENTARY INFORMATION

Upon visual inspection of the subject property on July 5, 2018, the required Notice of Public Hearing signs were posted.

RECOMMENDATION

Based on the foregoing, it is the recommendation of the Planning and Development Department that Application for Rezoning Ordinance **2018-0376** be **APPROVED**.
