This schedule contains the vehicles that will be replaced in FY18 as approved by Council. In order to receive the replacement vehicle the "old vehicle" as stated here by vehicle number must be turned in. Fleet Management has the option to keep turned in patrol vehicles on the City cap to be used exclusively for JSO wreck replacements and to keep JFRD apparatus on the City cap for one fiscal year for various purposes. Any changes to this schedule will have a financial impact in FY19.

Health Department Programs

FY 2018 - 2019

Program Name	Description	FY18 Proposed
STD	<p>Nationally, youth and young adults account for half of all new STD infections. While STDs affect individuals of all ages, STDs take a particularly heavy toll on young people. CDC estimates that individuals between the ages of 15 to 24 make up just over one quarter of the sexually active population, but account for half of the 20 million new sexually transmitted infections that occur in the United States each year. Looking at the data provisionally for 2017, fifty-five percent of reported STDs in Duval County were among youth and young adults aged 15-24. This age group accounted for one out of every two reported STDs for Duval County in 2017. The rate of infection is 8.3 times higher among 15-24 year olds than the reported STDs within the total population of Duval County, 4,987.9 per 100,000 and 604.1 per 100,000, respectively. The Jacksonville Teen Health Centers are STD/HIV prevention outreach programs offered on high school campuses and other community sites. This outreach/prevention program provides comprehensive health education, free condoms, STD/HIV/pregnancy screening, STD treatment, and referrals for related services. This funding has helped support seven high schools (Terry Parker, Jackson, Ribault, Englewood, and Sandalwood, Lee and West side High), and one community-based organization JASMYN (Jacksonville Area Sexual Minority Youth Network), in which services youth aged 13-23. Service sites were selected due to their location in areas with high STD/HIV morbidity. The Teen Health Centers received the model practice award by the National Association of County and City Health Officials (NACCHO) and also received national recognition by the Division of Adolescent and School Health at CDC as a success story for recognizing the need to address teen health by expanding services offered to include sexual health services in Duval County Public Schools. Funding will help this much needed program to expand and continue to provide vital services to Duval County's youth.</p>	147,000
Immunizations	<p>In 2016, after the Agape Community Health Center Network became independent, DOH-Duval with the support of the City of Jacksonville established the South Jacksonville Immunization Center. This gave us the opportunity to ensure continued access to immunizations for children and adults in the area. The center offers immunizations on a walk-in basis and serves a diverse population. The South Jacksonville Immunization Center continues to be a valuable source of immunizations, information, and education, especially as we see an increase in the number of medical providers who either no longer offer immunizations or only do so in a limited capacity. In 2017, we launched a campaign to increase awareness of the importance of vaccines. Our marketing included billboards, buses, bus shelters, local magazines, and radio ads. We have managed to increase our 2-year-old immunization rates from 87% in 2016 to 93% in 2017 with the goal being 95%. For the first time in several years, our Kindergarten immunization rate stands at 95.1% and our 7th grade rate is 97.1%. South Jacksonville served 4,965 clients in 2017 and provided over 29,000 services. The team has increased outreach efforts to the community by making reminder calls and participating in events in the community. It is important to maintain high immunization rates to guard against vaccine preventable diseases.</p>	258,292
HERAP	<p>DOH-Duval's Hospital Emergency Room Alternative Program (HERAP) program was transitioned to a clinic-based case management and educational program in 2017. This program was initially an ER diversion program designed to improve health outcomes for uninsured, underinsured, and low-income residents of our community. After our separation from Agape in 2016, the program underwent changes. We have now expanded our scope to provide case management and education services to HIV clients with co-morbidities (asthma, diabetes and hypertension) and OB clients to improve pregnancy outcomes and decrease infant mortality. Nutritional counseling is also provided for these clients. Self-Management workshops (diabetes and chronic disease aka Living Healthy Workshops) are taught by our qualified staff in conjunction with our community partner AHEC. For our prenatal clients, we offer group prenatal care at Wesconnett Health Services Center and we are in the process of becoming a National Centering Pregnancy site. Group prenatal care has been shown to increase positive outcomes and promote comradery amongst women of varying backgrounds who are of child bearing age.</p>	150,243
