PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

This legislation necessary for City Council to approve the closure and abandonment of easements for drainage and ponds located on RE# 015913-7000, lying northeast of the intersection of Collins Road and Plantation Bay Drive. The easements were granted to the City in Official Records Book 9098, Page 918, and other documents cited in the Grant and Release of Easements. The former easements were based on drainage plans for a golf course and over corridors which do not reflect the current drainage infrastructure.

The new owner and applicant, REDUS Florida Land, LLC., is requesting the City abandon the former easements and grant the City drainage and pond easements over the existing drainage infrastructure with the ability to relocate these easements in the future, if needed. Relocation would be subject to prior review and approval by the City Engineer, through the Final Development Review process, and subject to approval by the St. Johns River Water Management District. Any relocation would also require review by the City Surveyor, and authorization by the Chief of Real Estate, Public Works with the execution of an amendment to the Grant and Release document.

The City does not have any responsibility for maintenance of the current drainage infrastructure nor will it have responsibility for the current and future infrastructure. The Grant and Release of Easements in substantially the form attached is being submitted to convey these interests. The abandonment of the former easements and grant of the new easements will occur simultaneously upon execution of the document.

The applicant has paid the application fee of \$1,066.00. There were no objections to the closure of the drainage easement by Engineering or Right of Way and Stormwater Maintenance of Public Works. Maps and drawings are enclosed for your reference. If you require additional information, please call RJ Morris at 904-255-8705.
