***Staff Recommendation:*** **APPROVE**

**GENERAL INFORMATION**

Application for Sign Waiver **Ordinance 2019-0278 (SW-19-01)** seeks to permit a reduction in the required minimum setback from a public right of way for an existing pylon sign from 10 feet to 5 feet. The site is within a CCG-1 zoning district and has a CGC functional land use category as defined by the Future Land Use Map series (FLUMs) contained within the Future Land Use Element (FLUE) adopted as part of the 2030 Comprehensive Plan.

The 5.23 acre subject property is located along the service road for Airport Road and contains a 3,812 square foot one-story building constructed in 1989. The Applicant seeks to make cosmetic improvements to the existing pylon sign while reducing the minimum setback requirement along Airport Road.

**NOTICE TO OWNER / AGENT**

Section 656.1310, Ordinance Code, sets forth procedures and criteria for evaluating waivers of the Part 13 sign regulations. Section 656.1310 of the Ordinance Code defines a sign as “a

painting, structure or device which is placed, erected, or constructed or maintained on or in the ground, or on or outside of an enclosed building or other object or structure or affixed or painted on or inside an exterior window of a building for the purpose of displaying information, advertisement or attraction of the attention of persons, including posters, pictures, pictorial or reading matter and a letter, word, model, device or representation used in the nature of an advertisement, announcement, attraction or direction”.

### STANDARDS, CRITERIA AND FINDINGS

Pursuant to Section 656.1310(a)(i) through (x), Ordinance Code, provides that, with respect to action upon Applications for Sign Waivers, the Planning Commission shall grant a waiver only if substantial competent evidence exists to support a positive finding based on each of the following criteria as applicable:

- (i) *Will the effect of the sign waiver be compatible with the existing contiguous signage or zoning and consistent with the general character of the area considering population, density, scale, and orientation of the structures in the area?*

Yes. The effect of the sign waiver will be compatible with the existing contiguous zoning and general character of the area in that nearby free-standing signs are a similar distance from the right-of-way. The neighboring properties to the East (**1759 Airport Road, 1735 Airport Rd**) both have existing pole signs that encroach into the setback requirements for CCG-1 Zoning District. The signs along Airport Road have been existing for several years and considered legally non-conforming and this request for a setback reduction would not create signage out of character for the general area.

- (ii) *Would the result detract from the specific intent of the zoning ordinance by promoting the continued existence of nonconforming signs that exist in the vicinity?*

No. The intent of the zoning ordinance is to have signage that does not interfere with visibility, but promotes signage that is consistent with that found in the surrounding area. The Applicant will be refurbishing an existing pylon sign that faces Airport Road. Given the location of the sign in relationship to the established developed pattern of the area, Staff has determined that the requested reduction in setback distance does not detract from the specific intent of the zoning ordinance as it relates to compatibility.

- (iii) *Could the effect of the proposed waiver diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, and could such waiver substantially interfere with or injure the rights of others whose property would be affected by the same?*

No. The effect of the proposed sign waiver is unlikely to diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, in that the sign is already existing and is located the same distance from the South property line similar to other properties along Airport Road.

- (iv) *Would the waiver have a detrimental effect on vehicular traffic or parking conditions, or result in the creation of objectionable or excessive light, glare, shadows or other effects, taking into account existing uses and zoning in the vicinity?*

No. The waiver is unlikely to have a detrimental effect on vehicular traffic or parking conditions as it has been existing for several years with no issues. The sign proposed by this application will only be replacing the facing. It is therefore also unlikely that the proposed sign will create objectionable light, glare or other effects additional to what already exists in the area.

- (v) *Is the proposed waiver detrimental to the public health, safety or welfare, or could such waiver result in additional public expense, creation of nuisances, or cause conflict with any other applicable law?*

No. The proposed waiver is unlikely to be detrimental to the public health, safety, or welfare in that similar signage already exists along Airport Road and has not caused issues previously.

- (vi) *Does the subject property exhibit specific physical limitations or characteristics, which could be unique to the site and which would make imposition of the strict letter of the regulation unduly burdensome?*

Yes, the subject property does exhibit specific physical limitations that limit the setback of the sign location from the road. The sign is currently located 5 feet from the South property line and if it were to be moved back 10 feet to meet the setback it will be located within the entrance driveway to the office and parking for the property. The only other option would be to move the sign further West along Airport Road.

- (vii) *Is the request based exclusively upon a desire to reduce the costs associated with compliance and is the request the minimum necessary to obtain a reasonable communication of one's message?*

No. The request is not based on a desire to reduce the costs associated with compliance, but is related to changing site characteristics caused by a government taking. It is the minimum necessary request to obtain reasonable communication, as placement of the new sign anywhere on the eastern property line other than the proposed location would require greater reduction in setback than that proposed by this application, or would have negative effects on internal and external traffic via sight triangle encroachment.

- (viii) *Is the request the result of violation that has existed for a considerable length of time without receiving a citation and if so, is the violation that exists a result of construction that occurred prior to the applicants acquiring the property, not being a direct result of the actions of the current owner?*

No. The request is not the result of any cited violations. The signs has been existing on

the property for several years with no violations but due to make changes to the face of the sign the owner is required to bring the sign into compliance or file for a sign waiver.

- (ix) *Does the request accomplish a compelling public interest, such as, for example, furthering the preservation of natural resources by saving a tree or trees?*

Yes. The request will further the public interest as it recognizes the original sign location as well as assures that the safety and interests of the public and the property owner are protected. Granting this waiver will allow the owner to replace only the face of the sign for the businesses new name.

- (x) *Would strict compliance with the regulation create a substantial financial burden when considering the cost of compliance?*

Yes. While the goal of the Zoning Code is not to promote the continued existence of nonconforming signs, maintaining a sign in the specified location significantly outweigh the benefits of complying with the strict letter. A substantial burden would be imposed in order to relocate the sign within the required setbacks.

## CRITERIA

Section 656.1310, Ordinance Code, sets forth procedures and criteria for evaluating waivers of the Part 13 sign regulations. Section 656.1302 of the Ordinance Code defines a sign as *"a painting, structure, projected image or device which is placed, erected, constructed or maintained on or in the ground or water, or on or outside of an enclosed building, boat, ship, vessel or other object or structure or affixed or painted on or inside an exterior window of a building for the purpose of display, information, advertisement or attraction of the attention of persons, including posters, pictures, pictorial or reading matter and a letter, word, model, device or representation used in the nature of an advertisement, announcement, attraction or direction."*

Section 656.133(c)1 through 10, Ordinance Code, provides that, with respect to action upon Applications for Sign Waivers, the City Council shall grant a waiver only if substantial competent evidence exists to support a positive finding based on each of the following criteria as applicable:

1. *Will the effect of the sign waiver be compatible with the existing contiguous signage or zoning and consistent with the general character of the area considering population, density, scale, and orientation of the structures in the area?*
2. *Would the result detract from the specific intent of the zoning ordinance by promoting the continued existence of nonconforming signs that exist in the vicinity?*
3. *Could the effect of the proposed waiver diminish property values in, or negatively alter the aesthetic character of the area surrounding the site, and could such waiver substantially interfere with or injure the rights of others whose property would be affected by the same?*
4. *Would the waiver have a detrimental effect on vehicular traffic or parking conditions, or result in the creation of objectionable or excessive light, glare, shadows or other effects, taking into account existing uses and zoning in the vicinity?*
5. *Is the proposed waiver detrimental to the public health, safety or welfare, or could such waiver result in additional public expense, creation of nuisances, or cause conflict with any other applicable law?*
6. *Does the subject property exhibit specific physical limitations or characteristics, which would be unique to the site and which would make imposition of the strict letter of the regulation unduly burdensome?*
7. *Is the request based exclusively upon a desire to reduce the costs associated with compliance and is the request the minimum necessary to obtain a reasonable communication of one's message?*
8. *Is the request the result of a violation that has existed for a considerable length of time without receiving a citation and if so, is the violation that exists a result of construction that occurred prior to the applicant's acquiring the property, not being a direct result of the actions of the current owner?*
9. *Does the request accomplish a compelling public interest such as, for example, furthering the preservation of natural resources by saving a tree or trees?*
10. *Would strict compliance with the regulation create a substantial financial burden when considering the cost of compliance?*

18. Given the above definition of a "sign" and the aforementioned criteria by which the request will be reviewed against, please describe the reason that the waiver is being sought. Provide as much information as you can; you may attach a separate sheet if necessary. Please note that failure by the applicant to adequately substantiate the need for the request and to meet the criteria set forth may result in a denial.

To whomsoever it may concern,

We would like to respectfully request a set back ~~back~~ of 5', instead of 10'. We have an existing pylon sign located at the front of the property (At Airport Rd), which is more than 25 years old, and we only intend to change the sign face, and do nothing else, since customers are not able to locate the business.

The ~~sign~~ existing sign <sup>appears</sup> to be in very good condition and is not damaged in any way whatsoever. All other businesses along the road have similar signs and at similar locations with respect to the road.

We humbly and respectfully request the waiver be granted.

Thank you

- Please note that the existing sign (more than 25 years old) is well within property line – property markers are staked and have yellow flags as done per the survey. We would like to change the vinyl face of the sign to the new business name so customers are able to locate the business. The sign is in very good condition and appears to be structurally sound. We only want to change the vinyl face.

All other businesses' signs are at the same location with respect to Airport Rd. Our sign appears to be the same type and age as all other businesses in the area. Please note property line stakes and location of the other businesses signs for reference.
