Project: FR055 Department ID:
 Project Detail: 01
 Project Title: Acquisition & Demo of 17 Floodprone Properties Council District(s): 5
 Project Location: South Shores and Reed Subdivision Neighborhoods Project Number: FR055
 Department: Jacksonville Fire and Rescue Department Program Area:
 Ordinance No.: BT No.: BT19088 Useful Life: Project Completion Date: November 2020

Project Description:

These properties are located in the Reed Subdivision and South Shores Neighborhoods along the South Bank of the St. Johns River (32207). To eliminate future flood risks, the City will acquire ownership of the properties, demolish and remove debris, and restore the properties to green space. The properties will be deed-restricted to prevent new development and future flooding.

Justification:

The properties targeted for this project are located within the 100-year floodplain. This area experienced storm surge of over three feet during Hurricane Irma, which severely impacted many of the structures. Even without severe weather, this area is subject to persistent nuisance flooding. This project will reduce future public costs to the county, state, and federal agencies that provide evacuation and rescue, emergency shelter, and debris removal services.
