PURPOSE: White Paper (Explain Why this legislation is necessary? Provide; Who, What, When, Where, How and the Impact.) Council Research will complete this form for Council introduced legislation and the Administration is responsible for all other legislation. (Minimum of 350 words - Maximum of 1 page.)

Traffic conditions at the intersection of Old St. Augustine Rd and Livingston Rd were studied by the Traffic Engineering Division and determined to satisfy warrants for traffic signal control. The junction is currently unsignalized and the signal would serve two different school entrances located here. The proposed traffic signal will be a "mast arm" construction accommodating a four lane median divided roadway with left turn bays. Deferral of this amendment of the CIP until the next annual budget and CIP review will be detrimental to the best interest of the community because such deferral will result in the unnecessary delay of installing a traffic signal at this busy intersection. The Public Works Department / Traffic Engineering Division will provide oversight for this project.

APPROPRIATION: Total Amount Appropriated \$420,000.00 as follows:
